MOBILITY & INDEPENDENT LIVING

# Selected Walker & Rollator Collection

## 2026 market-ready shortlist

A focused 10-model collection for distributors, care providers and private-label programmes.

- 7 walker frames
- 3 seated rollators
- 100 kg catalogue load rating

FZK-3427-5

FZK-3108

FZK-3107

# A focused portfolio, not a crowded catalogue

The selection covers the practical buying steps from simple folding frames to seated rollators, while keeping each model visibly distinct.

01

## Walker Essentials

Clear entry and core models for high-frequency distributor enquiries.

**FZK-3428**
Fixed frame

**FZK-3427**
Two-mode frame

**FZK-3427-5**
Front-wheel step-up

3 selected models

02

## Fit & Transfer Support

More specialised configurations for height, width, rising support and directional control.

**FZK-3431H**
Tall fit

**FZK-3437**
Lower hand tier

**FZK-3632**
Swivel + brake

**FZK-3438**

4 selected models

03

## Rollators

Seating, braking and storage functions for a complete mobility range.

**FZK-3108**
Adjustable seat

**FZK-3111**
Extended height

**FZK-3107**
Design-led upright form

3 selected models

Selection reflects range differentiation and catalogue specifications; final commercial release remains model- and market-specific.

Value-range anchor

# Entry Fixed Walker

A straightforward fixed-frame walker for buyers building a clear, price-accessible core range. The folding centre joint and pin-adjustable legs keep the configuration easy to explain and service.

## MARKET FIT

- Entry-level walker assortment
- Indoor recovery and daily support
- Simple distributor or private-label SKU

## KEY CONFIGURATION

- Fixed round-tube aluminum frame
- Centre-button folding
- Leg-pin height adjustment
- Silver or painted finish options

## SELECTED SPECIFICATIONS

| OVERALL HEIGHT | OVERALL WIDTH | DEPTH |
|---|---|---|
| **71–84 cm** | **57 cm** | **41 cm** |
| INSIDE WIDTH | NET WEIGHT | MAXIMUM LOAD |
| **44 cm** | **2.2 kg** | **100 kg** |

Catalogue values. Confirm final production specification, testing, labeling and market compliance before order.

FZK-3427

Core versatile SKU

# Two-Mode Folding Walker

One frame supports both fixed and reciprocal use, making this the most versatile standard walker in the selection. Its compact folding structure suits broad distributor and care-channel positioning.

## MARKET FIT

- Core rehabilitation and home-care range
- Buyers seeking one flexible frame option
- Compact storage and transport needs

## KEY CONFIGURATION

- Fixed and reciprocal operating modes
- Spring-pin alternating movement
- Centre-button folding
- Leg-pin height adjustment

## SELECTED SPECIFICATIONS

| OVERALL HEIGHT | OVERALL WIDTH | DEPTH |
|---|---|---|
| **73–85 cm** | **54 cm** | **41 cm** |

| INSIDE WIDTH | NET WEIGHT | MAXIMUM LOAD |
|---|---|---|
| **43 cm** | **2.2 kg** | **100 kg** |

Catalogue values. Confirm final production specification, testing, labeling and market compliance before order.

FZK-3427-5

Easy-forward-movement option

# Two-Mode Walker with Front Wheel

The dual-mode FZK-3427 platform gains two front wheels for smoother forward movement. It creates a clear step-up from a standard fixed walker without moving into a full rollator.

## MARKET FIT

- Rehabilitation and home-care channels
- Users who prefer reduced lifting effort
- Good-better product ladder planning

## KEY CONFIGURATION

- Fixed and reciprocal operating modes
- Two front wheels
- Centre-button folding
- Leg-pin height adjustment

## SELECTED SPECIFICATIONS

| OVERALL HEIGHT | OVERALL WIDTH | DEPTH |
|---|---|---|
| 74–84 cm | 65 cm | 41 cm |
| INSIDE WIDTH | NET WEIGHT | MAXIMUM LOAD |
| 43 cm | 2.5 kg | 100 kg |

Catalogue values. Confirm final production specification, testing, labeling and market compliance before order.

FZK-3431H

Extended-height option

# Tall Two-Mode Walker

An extended-height two-mode walker for assortments that need a broader user-fit range. The offset-tube frame and TPR grips also give it a more premium visual position than entry frames.

## MARKET FIT

- Taller-user and extended-fit assortment
- Home-care and rehabilitation buyers
- Premium step-up from basic walkers

## KEY CONFIGURATION

- Fixed and reciprocal operating modes
- Extended 78–96 cm height range
- Offset-tube frame design
- TPR hand grips and folding frame

## SELECTED SPECIFICATIONS

| OVERALL HEIGHT | OVERALL WIDTH | DEPTH |
|---|---|---|
| **78–96 cm** | **54 cm** | **41 cm** |

| INSIDE WIDTH | NET WEIGHT | MAXIMUM LOAD |
|---|---|---|
| **43 cm** | **2.4 kg** | **100 kg** |

Catalogue values. Confirm final production specification, testing, labeling and market compliance before order.

FZK-3437

Transfer-assist configuration

# R-Frame Sit-to-Stand Walker

A two-level R-frame walker designed to provide an additional lower hand position when rising from a chair or bedside. It adds a clearly differentiated transfer-support option to a standard walker range.

## MARKET FIT

- Home-care and bedside product range
- Buyers seeking differentiated hand positions
- Transfer-support product merchandising

## KEY CONFIGURATION

- Fixed and reciprocal operating modes
- Lower R-shaped hand position
- Polished aluminum frame
- TPR grips and folding structure

## SELECTED SPECIFICATIONS

| UPPER HANDLE | LOWER HANDLE | OVERALL WIDTH |
|---|---|---|
| 73–85 cm | 47–59 cm | 54 cm |
| **INSIDE WIDTH** | **NET WEIGHT** | **MAXIMUM LOAD** |
| 43 cm | 2.6 kg | 100 kg |

Catalogue values. Confirm final production specification, testing, labeling and market compliance before order.

FZK-3632

Control-focused wheeled SKU

# Swivel Walker with Rear Brakes

Three-inch swivel front wheels improve direction changes, while the rear braking feet add a more controlled configuration. It fills the gap between a basic front-wheel walker and a four-wheel rollator.

## MARKET FIT

- Directional mobility and controlled movement
- Rehabilitation and care-channel buyers
- Bridge SKU below full rollators

## KEY CONFIGURATION

- 3-inch swivel front wheels
- Rear braking feet
- Centre-button folding
- Leg-pin height adjustment

## SELECTED SPECIFICATIONS

| OVERALL HEIGHT | OVERALL WIDTH | DEPTH |
|---|---|---|
| **76–86 cm** | **58 cm** | **41 cm** |
| INSIDE WIDTH | NET WEIGHT | MAXIMUM LOAD |
| **43 cm** | **2.8 kg** | **100 kg** |

Catalogue values. Confirm final production specification, testing, labeling and market compliance before order.

FZK-3438

Adaptable-fit option

# Width-Adjustable Wheeled Walker

Width adjustment expands the fitting range, while five-inch front wheels and rear horseshoe feet create a practical hybrid walker. This is the strongest specification-led option in the frame-walker group.

## MARKET FIT

- Buyers prioritising fit flexibility
- Care settings with varied user profiles
- Specification-led premium walker range

## KEY CONFIGURATION

- Adjustable overall and inside width
- 5-inch front wheels
- Rear horseshoe feet
- Pull-down folding and height adjustment

## SELECTED SPECIFICATIONS

| OVERALL HEIGHT | OVERALL WIDTH | DEPTH |
|---|---|---|
| **73–91 cm** | **60–70 cm** | **41 cm** |
| INSIDE WIDTH | NET WEIGHT | MAXIMUM LOAD |
| **38–48 cm** | **3.5 kg** | **100 kg** |

Catalogue values. Confirm final production specification, testing, labeling and market compliance before order.

FZK-3108

Mainstream seated rollator

# Adjustable-Seat Rollator

A full-featured four-wheel rollator with adjustable seat and handle heights, a padded backrest and centre storage bag. Its familiar format makes it a strong mainstream choice for distributor and care-retail ranges.

## MARKET FIT

- Daily indoor and outdoor mobility
- Buyers needing rest and storage functions
- Mainstream rollator category coverage

## KEY CONFIGURATION

- Walking and parking hand brakes
- Seat and handle height adjustment
- 8-inch wheels and folding frame
- Padded backrest and centre bag

## SELECTED SPECIFICATIONS

| OVERALL HEIGHT | OVERALL WIDTH | SEAT WIDTH |
|---|---|---|
| 83–98 cm | 62 cm | 44 cm |

| SEAT DEPTH | NET WEIGHT | MAXIMUM LOAD |
|---|---|---|
| 31 cm | 7.9 kg | 100 kg |

Catalogue values. Confirm final production specification, testing, labeling and market compliance before order.

FZK-3111

Tall-fit rollator

# Extended-Height Rollator

An extended-height rollator with seat adjustment, cane holder and mesh storage. The 84–101 cm handle range gives buyers a distinct taller-fit option alongside a standard seated rollator.

## MARKET FIT

- Taller-user product assortment
- Daily mobility with cane-carrying needs
- Feature-led rollator merchandising

## KEY CONFIGURATION

- Walking and parking hand brakes
- Seat and handle height adjustment
- 8-inch wheels and folding frame
- Cane holder, mesh bag and padded backrest

## SELECTED SPECIFICATIONS

| OVERALL HEIGHT | OVERALL WIDTH | SEAT WIDTH |
|---|---|---|
| **84–101 cm** | **67 cm** | **36 cm** |
| SEAT DEPTH | NET WEIGHT | MAXIMUM LOAD |
| **23 cm** | **7.6 kg** | **100 kg** |

Catalogue values. Confirm final production specification, testing, labeling and market compliance before order.

FZK-3107

Design-led rollator

# Upright Folding Rollator

A distinctive upright-form rollator with a lightweight human-shaped frame, folding seat and front storage bag. The visual differentiation helps an assortment reach design-conscious buyers without duplicating a conventional rollator.

## MARKET FIT

- Design-led mobility product range
- Daily mobility with seat and storage
- Distinctive hero SKU for catalogues

## KEY CONFIGURATION

- Walking and parking hand brakes
- Height-adjustable handles
- Pull-up folding seat
- Swivel front wheels and front storage bag

## SELECTED SPECIFICATIONS

| OVERALL HEIGHT | OVERALL WIDTH | SEAT WIDTH |
|---|---|---|
| **84–96.5 cm** | **59.5 cm** | **46 cm** |

| DEPTH | NET WEIGHT | MAXIMUM LOAD |
|---|---|---|
| **57 cm** | **7.0 kg** | **100 kg** |

Catalogue values. Confirm final production specification, testing, labeling and market compliance before order.
